Eric Shaffer

Linear Interpolation

Bilinear Interpolation

Bilinear Interpolation

$$n(x, y) = \text{lerp}(y - y_i, n(x, y_i), n(x, y_i + 1))$$

$$n(x, y_i) = \text{lerp}(x - x_i, n(x_i, y_i), n(x_i + 1, y_i))$$

$$n(x, y_i + 1) = \text{lerp}(x - x_i, n(x_i, y_i + 1), n(x_i + 1, y_i + 1))$$
